Topic: Addressing ADHD and Mental Health Care for First Responders

HOW DO I KNOW IF I HAVE ADHD? AND WHO CAN DIAGNOSE IT?

**WHAT IS a T.O.V.A. TEST
& HOW IS IT ADMINISTERED?**

T.O.V.A. (Test of Variable Attention)
Testing is administered by a licensed and trained
counselor using a non-invasive, interactive
computer program.

Does anyone in the area specialize in mental health care for First Responders?

About our presenter:

Chrissy Durham LPCC, CDCA, NCC began her internship during graduate school in 2019. After raising her four children, she returned to complete her B.A. in Psychology, M.S. in Professional Counseling and has since completed a Post-Graduate Certificate in Addictions Counseling. She currently works as an outpatient dual diagnosis counselor with a focus on treating PTSD, ADHD and other mental health disorders with co-occurring Substance Use.
